School Update

As you are aware we had a flooding issue in school at the end of term in July. Major work was completed over the summer holidays which we were assured had resolved the problem.

Unfortunately, yesterday we experienced major flooding again affecting gas and electrics through school causing a major health and safety issue. Many thanks for your co-operation with evacuating school.

School, DMBC and Yorkshire Water have been working through the night to resolve this issue as soon as possible. The problem that has arisen and is still under investigation is due to a suspected collapsed drain on Sheep Dip Lane, causing all surface water to flood into our school site, back through our drainage system. Health and Safety have advised school and governors that until essential work has been completed we are not in a position to reconnect power supplies and allow children onto our main school site.

We are potentially expecting tankers, Jetta vacuum clearing and further camera investigations by Yorkshire Water over the next 24 hours.

We apologise for any inconvenience this may have caused but health and safety around children is our priority.

School will be closed again tomorrow for all pupils except Nursery situated in the Croft building. Further updates will follow as soon as we have them.

Yours faithfully

Mrs F Parish
Headteacher
